Description https://www.convergepay.com/ Pricing: \$10/month .. saving details, we have to add another \$10 monthly fee and \$0.02 per item. Until we get more traffic requiring this, will just have Angelie save off CC info that needs to be on file under master sheet. However, we should try and be somewhat secured by putting expiration on CC separate from the account number. Also, for the web portal, I would really like to put it under a completely different company, Tax ID - we don't need it for PSS but for Bridal Crossing Properties Instead. Lets get it switched this week.
